Burley stocks increased about 124 million pounds during the first quarter of 1933, compared with an increase of 212 million pounds during the same period of 1932. Of the 744 million pounds of Burley reported 408 million pounds are shown in the detailed report as B group, 215 million as C group, 105 million as X group and 11 million as Scrap. Maryland tobacco stocks, reported as 29,247,000 pounds on April 1, were about two million pounds lower than on January 1, 1933, but about ten million pounds higher than they were on April 1, 1932. The detailed report shows nine million pounds of Maryland tobacco in the B group, twelve million in the C group and eight million in the X group.

The cigar binder type stocks were about two million pounds lower on April 1 1933 than they were on April 1, 1932. Total binder stocks were reported as 195,122,000 pounds on April 1, 1933. The detailed report by groups of grades shows that of the total stocks reported of these types, 3,337,000 pounds are of wrapper quality, 77,575,000 pounds are binders, 9,411,000 pounds are fillers, and 103,814,000 pounds are stumping grade or X group Tobacco.
